ROTARACT CLUB

"Do unto others as you would have them do unto you"

That is precisely the principle on which the Rotaract Club has worked this year. The thirty odd members of the Rotaract club believe that we are indeed our borthers' keepers. We have not looked down on the people we have heleped or thought them to be any lesser than ourselves. We have treated them with the same respect that we want for ourselves, the respect that they deserve as equal human beings. Our interaction with the underprivileged has given us as much happiness and satisfaction as it has given them.

On the 12th of September the Rotaract club organised a blood donation camp in collaboration with the NSS. Around a hundred and fity bottles of blood were collected. A number of other activities like a visit to the Institute of mentally and physically handicapped and various other events like Rotal - an intercollegiate extravaganza of all Rotract clubs were some of the highlights of Rotract actiities. On the 20th Decmber a Seminar on kite skills was held in our college.

Following are the office bearers of Retract club :

Namita Jajoo	- Secretary.
Mansi Shah	- President
Pinal Shah	- Director
Nikunj Rigtia	- Director
Tarun Jain	- Jt Director

REPORT ON THE SEMNAR

Prof. Albino D'Souza

Life will certainly not be the same for the forty odd students who attended the Seminar on Life skills presented by Dr. Ms. Suman Kapur on the 20th December 2002. Dr. Suman comes from the group 'Health horizons' which conducts personality development programmes for individuals and groups. They specialise in performance enhancement, Personality development, skills for success in life, enrichment and rehabilitation.

Dr. Suman commenced her epoch-making speech with the statement that I.Q. is no longer a bench mark for success. Many people with high I.Q. have been miserable failures in life. Also there is a presence of increased conflicts and stresses and strains in modern living. The number of murders and crimes is also on the increase. Man's most distinguished asset is his brain.

She explained the reasons why certain people do well in life while others are miserable failures. The answer lies in correct use of life success skills ? I.Q. merely predicts school grades, job succes and gets one in a profession. It is not cognitive intelligence, apatitude and achievement.

Events do not cause stress but how a human being reacts to them does. Most people suffer from something called chronic fatigue syndrome. Also 8 % of all illnesses are psychomatic. Stress occurs when demands on an individual exceeds his adjustment resources and is believed to have delirous effect.

Most individuals can be classified in to either Type A or Type B groups. Hurried speech, constant rapid movements in eating, thinking and performing several things at one and the same time and no compassion for other are the main characteristics of Type A personalities. On the other hand Type B individuals are completely at variance with this Type A types. Aristotle once said 'Any one can become angry, That is easy. But o be angry with the right person in the right degree and at right time is very difficult.

Most people are like pressure cookers, they blow up steam on the slightest pretext. Dr. Kapur also said that happiness is like a butterfly. The more you chase it the more it runs away from you, but if you are still, remain steady, it silently comes and rests on you shoulders. A pessimist makes difficulties of opportunities while an optimist does exactly

the reverse. A successful person is one who lays the foundation with the bricks others throw at him.

Dr. Suman concluded by saying the following ;
"If you want happiness for an hour take a nap
If you want happiness for a day - go on a picnic
If you want happiness for a week - go for a vacation
If you want happiness for a year - inherit wealth and squander it
If you want happiness for a life time enroll life success skills"

Thus one should enroll in 'Health Horizons' for a life time of health solutions.

The Seminar concluded with a brief vote of thanks. Students were asked to avail of the services of Dr. Suman who is available as the college counsellor every Tuesday in our college Health centre.

THE ROTARY EXPERIENCE

It was indeed a week to cherish and remember for the 20 odd Rotarians of Lala Lajpat Rai College who visited the Institute of Medical and Physical Rehabilitation at Haji Ali from the 25th of November 2002 to 30th of November 2002. The main idea behind the project was to learn about how people who are physically challenged do their best and want to be valued for what they are and hence require appreciation rather than sympathy or charity.

During the course of the week the students visited the various departments of the Institute and had a close interaction with the heads of the departments, Doctors and patients.

Some of the departments we visited and the interaction that consequently followed is reported below :

We met Dr. Regge the H.O.D. of the occupational therapy department which concerns itself with upper neurological problems and extremity problems; also physiotherapy within the lower and upper extremity.

The practitioner evaluates, checks, plans and prescribes exercises medication for all orthopedic disabilities. Patients are referred to by the R.T.O. If the extent of disability exceeds more than 40 % especially for students, then such students are given concession certification for extra time during exams or are perhaps advised to avail the services of a scribe. Workers who suffer silent injuries in companies also refer the patients to the Department. The neuro Motor Unit of the Institute deals with Pediatric and Adult cases and the injuries of the brain and the spinal cord. The peculiarity of the brain . The peculiarity of the brain is that the brain cells do not undergo replacement when the brain is affected unlike the dermatological cells. When skin is bruised, new skin appears. But any damage to the brain affects the entire system, the brain cells don't recuperate. The unit dealt with cerebral palsy cases where deformity happens before birth i.e. the problems

are genetic. Such patients are rehabilitated. Such conditions are observed normally in a child who does not attain the normal maturity because the brain has not developed.

Such cases can be either CP diplegics - those which have only feet developed. One hand affected monoplegics. One side affected - hemiplegic.

Such patients are required to use aids callipers. A few cases of Down's syndrome which is a severe case of mental retardation especially whose MR components are affected were treated by the Institute. The near motor unit section was under the able administration of Dr. Vichaka. The orthopedic department receives patients from the OPD or physiotherapy departments. This department as the suggests deals with deformity of the bones - basically makes callipers for patients with disabilities of the foot.

We also visited the prosthetic and orthopedic workshop wherein we saw how workers made callipers for patients affected with polio. Unilateral for those affected on one foot and bilateral for those whose both feet were affected. Manufacturers of the above basic components was LIMCO company. The department also dealt with cases of amputation especially those involving artificial limbs. A positive mould was made and covered with lamination. Besides the unit also made poly uretheric foam foot and dealt with disorders involving prosthetic knee joints.

The visit to the centre truly proved inspiring and our young rotract members gained a fund of knowledge and first hand experience. All the physically handicapped deserve our moral support, encouragement and appreciation.

Our college does not emphasise only on the academic because we believe in the total personality development of the students. This mammoth task is achieved with the help of various associations – academic and cultural. Profs-In-Charge of these associations organised multifaceted activities all round the year to help the students to know their hidden talents and pursue them with confidence. Prof. Ms. Bijotkar, Prof In-Charge of English Literary Association organised elocution Competition, Poetry recitation competition and essay writing competition to boost our student's communication skills.

Prof. A. K. Rai, Prof-In-Charge of Hindi Association initiated its activities on 14th September i.e. *HINDI DIVAS* which was celebrated with enthusiasm. Prof. Damodar a well-known poet, writer and critic in Hindi and Marathi and Head of the Marathi Dept of Joshi and Bedekar College, Thane presided over the function. Students expressed their views on 'Importance of Hindi' and recited self-composed poems. Prof. Rai also organised Elocution competition, Poetry recitation competition and essay writing competition. SHISHIR - 2002

The extravaganza "Shishir 2002" held at amar gyan grover auditorium on 13th and 14th december organized by lala lajpat rai junior college was a grand success. Shishir means 'arrival of winter' season as the city faced the chilly winds of winter season. We at lalas moved with our motto to come close for winter carnival. The festival gave a perfect opportunity to the students to show off their talents.

Shishir 2002 was inaugurated by shri. mukesh sharma, director of doordarshan by garlanding the bust of lala lajpat rai lighting the diya. He stated in his message that in our country, we have gods and goddesses for everything except 'Karma' which is the best virtue to be worshiped by every quality individual. Shri parikshit sabani the guest of honour also lighted the diya and released the souvenir. He said that today's youth are running abroad. They fail to realise the importance of enhancing their own nation with the bulk of knowledge they have at their disposal.

Nearly 50 colleges from all over Mumbai and suburbs participated in the 24 events divided into five separate categories :

- a) Geet gaaye ja : Singing events including solo singing, duet singing and antakshary.
- b) Shake your bon-bon: dancing events, including indian, western, classical, solo dances, indian folk dances and western group dances.
- c) 'Kalakaari' - fine art events like fresh followers, rangoli, dulhan mehndi, tatoo drawing, aarti thali decoration, best out of waste, candle decoration, and fun with beads.
- d) Kisme kitna hai dum : academic events which included crossword, quiz, debate and elocution.
- e) Yeh hai style : sparkles of the evening which included fashion show, personality contest and ad-mad world.

The events were designed and patterned to bring out the talents from all the fields of learning & activities. Our judges were eminent personalities from their respective fields like Sanita Bangarga leading actress of 'yeh kya ho raha hai' salman Sayeed fashion co-

ordinator of Channel [v] and 'mtv', Mrs: Ila Dalal who has designed the album 'Made in india' by Alisha Chinoi, Mr Arondhekar the Marathi film music director we had an exciting visit by the 'Bombay Viking' accompanied with a live performance which energized the audience. The highlight of the festival was a healthy neck to neck competition between the participants which was cheered vigorously by a roaring crowd of almost 3000 students from various colleges. Ms Dipali Bhatia from the host college was crowned Ms Shishir and Mr Hemant Bhavsar from Thakur college was crowned Mr Shishir. The fun-n-fair and jam session were also great hits.

The prize distribution was presided over by shri Atul Shah (M.L.A.). Lala Lajpat Rai college of commerce and economics scored the highest points but being the host college the overall winners trophy was shared by Narsee Monjee college and Thakur college who were the runner's up with equal points. The host college was presented with a runner up trophy.

Shishir 2002 was a grand success. The major sponsors were The Times of India and 'Space skylark'. Our special thanks to all our others sponsors, well wishers personalities and celebrities who visited our festival as guests and judges. We are also grateful to our college management, Principal Dr. M.G. Shirihatti, our teaching and non-teaching staff and Shishir committee for their whole hearted support and co-operation.

Last but not the least, thanks to all our participants without whose participation this festival would not have been possible.
