SENIOR COLLEGE REPORT – 2008-09

Lala Lajpatrai College of Commerce and Economics was incepted in the year 1972. It is located on the prime locations of South Mumbai surrounded by Haji Ali shrine and Mahalaxmi temple to its left the mighty Arabian Sea just in front and the Race course to its back. Each one of them signify and symbolise devotion, divinity; vastness and mystery and of course the Racecourse reminding the mobility of life that whatever may be the magnitude of time and circumstances, life never stops but goes on.

This college is named after the great freedom fighter Lala Lajpatrai who was not only a social reformer but also a renowned Academic / Educationist. Lala Lajpatrai College is one of the leading commerce colleges in South Mumbai imparting quality education in commerce, Science, Information and Technology and Management since last 36 years.

This college has the honour of producing thousands of graduates and post graduates who have excelled in their respective fields and are now rendering valuable services to the society. Through their hard works and quality performance they have brought many a laurels and have added many a feathers to Lala Lajpatrai college hat. Be it Trade and Industry, Sports and Politics, Films and Entertainments or Information and Technology they have carved a special niche hence their presence is felt everywhere. Turning back when we discover the impressions left behind by our students in the sand of time, it really makes us feel proud and boastful about ourselves. Their achievements and accomplishment make us sigh in relief with a sense of satisfaction and satiation - “That somehow, somewhere we have succeeded in contributing within our limitation in the process of Nation Building”.

Academically we are one of the best institutions in Mumbai with a highly qualified and experienced, hardworking and dedicated team of teachers. To testify this claim we have B++ accreditation awarded by the NAAC last year. Late president, Dr. Shanker Dayal Sharma visited our college and inaugurated the Silver Jubilee Ceremony.

Dr. P. C. Alexander, the then governor of Maharashtra, in his capacity as the chancellor of University of Mumbai, who chaired the closing session of our Silver Jubilee Celebration had proclaimed that Lala Lajpatrai College is one of the Best colleges in the State of Maharashtra.

Our Results at the Board and University Examinations are the testimonies of our Academic excellence.

A LECTURE ON CAREER OPTIONS:

On 6th Feb 2009, we had a lecture on career planning by career counsellor, Pratibha Jam, our expert on careers in India and abroad. She is the counsellor for HR and Jai Hind College.

The seminar was a huge success with our 130 students attending. Pratibha gave a presentation on different career options available to student in India and abroad after graduation. She gave them the positive and negative aspects of going abroad. She cautioned students that going abroad was expensive, would cost 10 to 15 lakhs a year. They should be prepared for hard work and self study. They should not go just because somebody else is going. With the recession and job downslide it is even more necessary to make a firm decision. On the positive side education abroad, especially an MBA or a Masters equips a student with not only a foreign degree but great skills and experience also.

She answered all students' queries and also invited them to meet her if they had any further questions on careers.

REPORT ON LALA LAJPATRAI MEMORIAL LECTURE

Mr. S.S. Gupta, Chartered Accountant, delivered the 36th Lala Lajpatrai Memorial Lecture on 'Importance of Indirect Taxation'. The lecture was held on 17th January, 2009 in the Amar Gyan Grover Auditorium of the college. Dr. V. B. Angadi, Director of Lala Lajpatrai Institute of Management presided over.

Public finance deals with the fiscal operation of the Government. It is concerned with income and expenditure of the Government at all levels mainly central, state and local. Modern government undertakes a variety of function to accelerate economic growth and promote social welfare. In order to increase our expenditure, revenue has to be mobilised. There are various sources of revenue. Tax revenue is one of the main sources of public revenue. Tax is defined as a compulsory payment made by the people of a country to the government to meet public expenditure without any direct burden. Various taxes divided by the government are classified into direct and indirect taxes. A direct tax is one in which the burden cannot be shifted. It is paid by the person on whom it is levied. Indirect taxes are those in which the burden can be shifted. The impact and burden are on different persons and tax payer and tax bearer are different. Examples of indirect taxes are excise duties, customs duty, sales tax, etc.

Indirect taxes play a major role in the case of developing countries like India.

1. They are very convenient to pay as they are collected in small amount and are wrapped in prices. Since they are always hidden, the burden is felt less by the tax payers.
2. As they are included in prices, it is very difficult to evade them.

3. A proper indirect tax structure can be used to induce the production of essential goods or curb the production and consumption of luxurious and harmful goods.
4. Indirect taxes have wider base. Due to a larger coverage, the revenue obtained from indirect taxes tend to be more than direct tax revenue in the case of countries like India.
5. The health and welfare of people can be promoted through indirect taxation by imposing high taxes on harmful goods like cigarette, liquor, etc.
6. When indirect taxes are high, prices of goods and services tend to rise. This reduces the consumption of the people and encourages them to save more and help in Capital formation.
7. Like direct taxes, indirect taxes also can be made progressive. The necessary goods can be taxed at a lesser rate while the luxury goods can be taxed heavily. This also ensures equity as greater burden will be on the poor people.

Modern governments impose both direct and indirect taxes to mobilize adequate revenue. In the case of developing countries indirect taxes generate more revenue than direct taxes. However, in India the trend is changing gradually. The contribution from direct taxes is increasing while that of indirect taxes is declining. To ensure equity, progressive taxation is used in both direct and indirect taxes.

ABOUT SIGMA

Inaugurated on June 22nd 2005, by our hon'ble Finance Minister Mr. P Chidambaram, SIGMA is the brainchild of Mr. Milind Deora, M. P. (South Mumbai) that is spearheaded by the Sheriff and Principal of H.R. College Dr. Mrs.) Indu Shahani.

Today, students are privileged to receive education from the best of colleges, but each one of them faces the inevitable challenge of competition once they step into the corporate world. There is a huge gap between what is taught in college and what is actually required from the students. Interaction with corporate big-wigs to instill practical knowledge is a must in order to reduce the time required to train the student once he/she becomes a part of our ever growing corporate sector. Through SIGMA we try to bridge this gap between Academia and Industry.

By being a part of SIGMA, a student will have the opportunity to attend Seminars, Workshops, Industrial Visits, Annual General Meeting and Group Discussions conducted by our member corporates namely Crompton Greaves, ICICI Bank, HDFC Ltd., TV 18, Kotak Mahindra and Indian Bulls who have been generous enough to lend us a helping hand in our endeavor to make SIGMA a success.

Six colleges from South Mumbai namely - H.R. College (Churchgate), Lala Lajpatrai College (Mahalaxmi), Bhavan's College (Chowpatty), Hinduja College (Charni Road), Siddharth College (Fort), and Sydenham College (Churchgate) form an important part of SIGMA and as per our long term plans, we hope to make every college in the city an integral part of our wonderful initiative.

Last but certainly not the least we require the support and participation of the Students in order to make the dream a success and allow us make our dreams and aspiration a success too.

SIGMA has a certain Code of Conduct to be followed by its members:

1. Once registered for a SIGMA event, it is compulsory to attend that event.
2. Not attending an event that you have registered for results in negative credits and has direct impact on your SIGMA certificate.
