

SUBJECT GATEWAYS

The Internet became a major medium in the information world. It offers access to massive amount of information resources but the fact remains that it is still very hard for people to locate high quality information among the general chaos.

In the past few years the issue of resource discovery on the Internet has been the focus of much work by many different communities. Subject Gateways provide links to information resources (documents, collections, sites or services), predominantly accessible via the Internet.

ADAM: Art Design and Media Gateway:

subject coverage: Art Design & Media

A searchable catalogue of Internet resources that have been carefully selected and catalogued by professional librarians for the benefit of the UK Higher Education community.
